

## **Railtex welcomes international audience as visitor registration officially opens**

Professionals from across the rail industry are being urged to secure their place at Railtex 2019, the 14<sup>th</sup> international exhibition of railway equipment, systems and services, as visitor registration officially opens.

Starting this month (February 2019), visitors will be able to confirm their attendance online, for the UK's leading rail industry expo, which will take place between 14<sup>th</sup> -16<sup>th</sup> May at Birmingham's NEC.

More than 330 organisations will be exhibiting at Railtex, with a mix of UK and international suppliers appearing under one roof, spanning the full range of rail infrastructure and rolling stock sectors.

Registration for Railtex 2019 also gives visitors access to a range of industry keynote speeches, project updates and technical seminars that are accredited by the CPD Certification Service, meaning they can be used by attendees and their professional bodies towards annual Continuing Professional Development.

The show promises to bring an international flavour to the Midlands, with visitors from more than 50 countries set to be in attendance. Confirmed exhibitors include Austria's rail milling and sawing specialist **Linsinger**, Germany's electronic systems solutions provider **Polyrack Tech Group**, Italy's heating element technologies supplier **Zoppa Industries** and Taiwan's industrial and IP network solutions provider **Lantech**, amongst many others from countries across the globe.

With visitor registration officially opening there is a growing excitement around the industry for what Mack Brooks Exhibitions, the show's organisers, anticipate will be one of their biggest shows in recent years.

The show provides the perfect platform for rail suppliers and professionals to meet, build contacts and do meaningful business within a friendly and engaging environment, ideally located in the heart of the UK.

Alongside the main exhibition, the organisers have developed a varied and informative supporting programme, with some huge industry names speaking on the biggest issues surrounding our network. Details of these will be announced soon, for what promises to be a fascinating schedule of events.

Mack Brooks Exhibitions is looking forward to welcoming hundreds of exhibitors to the NEC in Birmingham, as they provide valuable insights into their products and services. The exhibition team also be welcoming thousands of delegates over the three days during what is expected to be one of the highlights of the rail industry calendar.

To gain free entry to the show pre-register on the website [www.railtex.co.uk](http://www.railtex.co.uk)

**Note to Editors**

**Railtex 2019**

Railtex is the essential showcase for products and services for the all sectors of the rail market in the UK. The show is held biennially and has successfully served this market for more than 25 years. It is organised by Mack Brooks Exhibitions ([www.mackbrooks.com](http://www.mackbrooks.com)), which also runs the Infrarail series of railway infrastructure technology shows. Outside the UK, the company's regular rail industry exhibitions include SIFER in France and EXPO Ferroviaria in Italy, as well as Exporail China and India.
